

Skills: technical sales, project management, storytelling, research, teaching, client-facing, software development

Tools: Monday.com, Salesforce, Java, Python, API integrations, Canva, Microsoft Office, QuickBooks

WORK EXPERIENCE

IBM, New York, NY

Client Engineering – Platform Engineer

Feb. 2024 – Dec. 2025

- Led 20+ customer proof-of-concept engagements, tracked and completed technical work, delegated tasks to teammates, collaborated with clients and other IBM teams, including Engineering, Product, and Consulting
- Demonstrated software weekly including watsonx Orchestrate, watsonx Assistant, IBM Cloud Code Engine
- Designed conversation flows, wrote API specs, and adjusted model thresholds for conversational AI assistant demos that focused on student loan assistance and helping nursing students with licensing exams
- Won in 2025: one \$4M ELA and multiple \$50k-\$200k deals for eight SLED and healthcare accounts

Client Engineering – Associate Platform Engineer

Oct. 2023 – Feb. 2024

- Improved efficiency of daily standup meetings by designing and educating teammates on processes for collaborative notetaking during client calls

Data & AI Brand Technical Specialist, U.S. Public Market, Healthcare, Life Sciences

Apr. 2022 – Oct. 2023

- Developed customer relationships, both virtual and in-person, and prospected new sales opportunities

IBM Summit Program – Global Sales School

Oct. 2021 – Apr. 2022

- Six-month sales training program where I presented, negotiated, and closed mock deals for IBM executives

Volunteer Lead, Women at IBM NYC Business Resource Group

Oct. 2021– Dec. 2025

- Led a team that produced 20+ events yearly for the NYC community to foster career growth and education
- Managed end-to-end event planning, from design thinking workshops to feedback collection and analysis

Moab Music Festival, Moab, UT

Front of House Manager and Box Office Assistant

Seasonal, Aug. 2022 – Sep. 2025

- Compile and analyze data from 15+ chamber music events and 2,000+ tickets to identify sales trends
- Manage 20+ volunteers through in-person orientations, emails, and day-of instructions at each venue

Code.org, Seattle, WA – Remote

Software Developer

Jun. 2021 – Dec. 2022

- Designed and wrote validation code for 2021 Hour of Code “Hello World” activity
- Restructured Sprite Lab validation code base to streamline updates across the Code.org CSF curriculum

University of Pennsylvania Department of Computer and Information Science, Philadelphia, PA

Teaching Assistant, Programming Languages and Techniques I: CIS 120

Jan. 2019 – May 2021

- Promoted to Head Teaching Assistant in March 2020 and managed 47 staff for a ~350-student course
- Taught weekly recitation and office hours for 20-30 students, hosted 1:1 code reviews, graded homework
- Conducted entire staff hiring process for two semesters, including scheduling multiple interview rounds, writing coding questions, collecting feedback from current staff and professors, and onboarding new staff
- Formulated questions for, administered, and graded 10+ exams

Ryan J. Urbanowicz Lab at Perelman School of Medicine, Philadelphia, PA

Undergraduate Researcher

May 2019 – Aug. 2019

- Built a dynamic ML model, TARPS, that instantaneously predicts patient risk as new data is available
- Utilized the ExSTraCS Learning Classifier System algorithm in custom Python scripts for data processing

EDUCATION

University of Pennsylvania, College of Arts and Sciences, Philadelphia, PA

May 2021

Bachelor of Arts in Computer Science and Music

Honors and Awards: Summa Cum Laude, Phi Beta Kappa, Dean's List, Computer Science Undergrad Research

Poster Competition 2nd place, Computing Research Association 2019 Grace Hopper Celebration Research Scholar
